

YGNACIO VALLEY ROAD REHABILITATION

Roadway Impacts

The City of Walnut Creek is scheduled to conduct the Ygnacio Valley Road Rehabilitation project starting in Spring 2017. The project will begin at Hillside Drive extending to Civic Drive. Construction is estimated to take approximately 3 months to complete. Day time Lane Closure hours will be between 9AM and 3PM.

Additional Information

The City of Walnut Creek is scheduled to conduct the Ygnacio Valley Road Rehabilitation Project on Ygnacio Valley Road starting in the spring of 2017. The project will begin at Hillside Drive extending to Civic Drive. The work is further described below:

Street Tree Replacement – Street Trees in declining health inside the project limits will be removed and replaced with new street trees. New tree species selected will be more suitable for street tree applications in the vicinity of overhead utilities and street traffic. Depending on the tree's existing location, new tree locations maybe adjusted for improved visibility. Hours for this work will be from Monday through Friday between 7:00 A.M. and 6:00 P.M. Portions of the sidewalk will be closed during the construction period. Pedestrians will be directed to take alternative routes until repairs are complete.

Sidewalk Repair and Americans with Disabilities Act improvements – Damaged sidewalk and curb ramp upgrades in conformance with the Americans with Disabilities Act will be implemented inside the project limits. Hours for this work will be from Monday through Friday between 7:00 A.M. and 6:00 P.M. Portions of the sidewalk will be closed during the construction period. Pedestrians will be directed to take alternative routes until repairs are complete.

Roadway Repaving from (Hillside Drive to Civic Drive). The work will include removing and replacing the top layer of the asphalt roadway and repairing the roadway areas where the asphalt is starting to fail. The work is schedule to be performed overnight from Sunday through Thursday between 10:00 P.M. and 5:00 A.M. This is to reduce impacts to traffic and to increase worker safety. This work will be scheduled after the completion of the concrete work.

Changeable message signs will be placed on Ygnacio Valley Road before construction begins to notify residents and traffic of the exact time and date of the work. During construction, "No Parking" signs will be posted in advance of work. Vehicles that are left in posted areas will be towed if necessary at the vehicle owner's expense. The City understands that there will be inconveniences due to the construction of this project and will try to maintain access and minimize any expected lane closures or delays.
